

Introduction

This document will show how an authorized CloudMD365 user can export a patient's electronic health information at any time. Users can customize the data that they want to export by selecting a date range and selecting the sections required for the clinical data. The electronic health information data can be exported as PDF.

Security and Authentication

Only authorized CloudMD365 users can have access / ability to perform the export functionality, otherwise, the system administrator(s) can run the electronic health information export functionality for them.

Exporting Patient Medical Records

CloudMD365 enables users to easily access their patient's information which they can export when needed.

To export patient clinical data from CloudMD365, follow these steps:

	ø	Username Pessword Forget Password?	Coven by Mesules	

Step 1: Login to https://glutality.cloudmd365.com/login

Login Screen
